

## Water Meters

### Residential Water Meters

#### Electronic Ultrasonic Water Metering 5/8" – 2"

- ✓ Highly accurate, lead-free brass ultrasonic smart water meter for all residential and industrial installations
- ✓ Lead-free copper alloy "CUPHIN®" body UV resistant housing with IP68 rating
- ✓ Integrated leak detection
- ✓ Mountable in any position
- ✓ Over 40 days of hourly data storage
- ✓ Diehl extended encoder protocol that includes temperature, alarms and error messages
- ✓ Meets or exceeds C715 AWWA/ANSI standards, Complies with NSF/ANSI Standards

Metering

### Commercial Water Meters

#### 1-1/2" – 12" Electromagnetic Water Metering

The Honeywell Elster evoQ4 is a single meter that meets the needs of traditional turbine, compound, single-jet and magnetic meters

## Meter Automation Solutions

### Cellular Reading Solutions

Eliminate costly infrastructure costs with Cellular Solutions that include system analytics and customer engagement  
Remote Water Meter Shut-off

### Mobile Reading Solutions

### Universal Registers

Universal and Programmable Solid State "State of the Art" register to allow for the retrofit of existing meters. Encoded output for AMR and AMI solutions.

### Meter Boxes and Lids

Improve the performance of AMI Systems with polymer lids and boxes  
Nicor's patented endpoint solutions make for smooth AMR-AMI deployments while improving RF performance. Nicor products are durable, allowing for retrofit onto older meter boxes and adaptable to future AMI technology developments.
